Cali Olsen-Binks, Superintendent, shared a document from California School Services regarding a recommendation to change the Governor's target for central administration cuts.

Correspondence

Robert P. Ratcliffe, Chief of School Police Services, referred to comments made at the previous meeting that according to a national survey there was no crime prevention in having officers on campuses. He indicated that the study the statement was based on was an after school program safety study, and that federal crime reporting data indicated that overall violent crime and expulsions were down, and there had been a twofold reduction in crime on district campuses as compared to the reduction of crime in the city.

Administrator
Comments

Oscar Dueñas, Associate Superintendent, Instructional Services, commented on the California Department of Education's identification of the persistently low-performing schools and his attendance, along with the Superintendent, at the previous week's State Board of Education meeting to address that Board regarding the issue.

Administrator
Comments,
continued

Gayle Hinazumi, Director of Special Education, commented on the Response to Intervention program for the district.

Ms. Chavez commented on a lunchtime event at Fontana High School she had attended the previous week and how well-behaved the students were at that event, and on the disparity of student expulsions between Fontana Unified and the Los Angeles Unified school districts. She asked about the possibility of bringing social workers to District campuses and hiring a person to seek out and apply for various grants.

Board
Member
Comments

Mrs. Binks thanked staff members for their representation at the State Board of Education meeting and for the evening's presentations.

Mr. Hawthorn shared a concern that parent conferences and other items would not be in conflict with the calendar change, asked that an item be provided for the Board to strip funds from it's budget, and to have staff look into the feasibility of utilizing solar power in the district. He then mentioned the passing of a former Fontana High School student due to an automobile accident.

Ms. Olsen-Binks commented on the importance of the U.S. Census and energy conservation.

Comments

Board President Hawthorn adjourned the meeting in memory of Zach Norbaum, former District student, at 9:45 p.m.

ITEM TITLE: Approve Application

BOARD OF EDUCATION MEETING: 04/07/10
Discussion/Action Session

BACKGROUND:

Perkins funding is federal money allocated through the State of California Department of Education to support Career Technical Education programs in secondary schools that provide students a sequence of courses with a focus on preparing them for the workforce or entry into postsecondary education or further technical training. The Perkins funding has been extended at the present level of funding pending legislative action. Board approval is a necessary component of the application for funding.

The allocation for the district is used to provide each of the high school sites with funds that support Career Technical Education programs. Examples are new equipment, instructional supplies, certificated teacher salaries for externships, staff development, student trips and competitions, curriculum revisions, and replacement equipment.

FISCAL IMPLICATION:

Anticipated funding of \$277,425.00.

RECOMMENDATION:

The Superintendent recommends that the Board of Education approve the Carl D. Perkins Funding Application in the anticipated amount of \$277,425.00.

ITEM TITLE: Approve Plan and Application BOARD OF EDUCATION MEETING: 04/07/10
Discussion/Action Session

BACKGROUND:

Work Experience Education links the academic core curriculum with the world of work and promotes students' school-to-career transitions. It assists students to develop skills, habits and attitudes conducive to job success and personal growth, while helping them choose and to prepare realistically and wisely for careers. Students must have a valid work permit, be at least 16 years old, in 11th or 12th grade, and currently employed in a paid or unpaid job to participate.

The Fontana Unified School District must review and submit a Secondary District Plan and Application for Work Experience Education Program every three years to comply with appropriate federal and state laws. Board approval is a necessary component of this application. A copy of the plan and application has been provided to the Board of Education members under separate cover; other interested parties may request copies by contacting the District Career Technical Education Department.

FISCAL IMPLICATION:

None

RECOMMENDATION:

The Superintendent recommends that the Board of Education approve the Secondary District Plan and Application for Work Experience Education Program for Fontana Unified School District as provided under separate cover.

ITEM TITLE: Approve Waivers

BOARD OF EDUCATION MEETING: 04/07/10
Discussion/Action Session

BACKGROUND:

The American Recovery and Reinvestment Act of 2009 (ARRA) provides significant new funding for programs under Title I, Part A of the Elementary and Secondary Education Act of 1965 (Title I).

The Secretary of Education is accepting and has approved requests for waivers from the California Department of Education (CDE) with regard to the use of Title I, Part A, ARRA funds. In turn, CDE released guidance and applications that enable Local Education Agencies (LEAs) to apply for waivers.

Waiver:

To exempt the District from the 14-day Public School Choice parent notification requirement for students enrolled in newly identified Program Improvement schools for 2009-2010 or schools which did not exit Program Improvement during the 2009-2010 school year. 34 *CFR* Section 200.37 (b)(4)(iv)

Rationale:

CDE did not release the information about Program Improvement status until September 15, 2009, which hampered our ability to meet the 14-day timeline for District schools. The District's Program Improvement notification letters were mailed to Palmetto and Randall-Pepper parents on September 17, 2009. A scoring error also delayed the results of the California Alternative Performance Assessment (CAPA). CAPA results were released in late November 2009 and the District's Program Improvement notification letters were mailed to Truman Middle and Redwood parents on December 2, 2009. ***Please note that this waiver was previously granted for all applicable LEAs by the State Board of Education (SBE) at its September 2009 meeting. The inclusion of this item in the application package and your response, is for federal reporting purposes only.***

Waiver:

Exemption to exclude all of the Title I, Part A, ARRA funding from the calculation of the 20% obligation for Public School Choice-related transportation and Supplemental Educational Services. ESEA Section 1116(b)(10) and 34 *CFR* Section 200.48(a)(2).

Rationale:

Each year the District has been able to provide Public School Choice transportation or Supplemental Educational Services to all eligible students who applied and participated. Typically, after the demand was met, carry-over funds remained. Therefore, the 20% set-aside of the Title I, Part A, ARRA funds is not needed to meet the demands of the District's Public School Choice transportation and Supplemental Educational Services requests.

Waiver:

Exemption to exclude all of the Title I, Part A, ARRA funding from the calculation of the per-pupil rate for Supplemental Educational Services. ESEA Section 1116(e)(6)(A) and 34 *CFR* Section 200.48(c)(1).

Rationale:

Since we are asking to waive the Title I, Part A, ARRA funding from the 20% set-aside for Public School Choice transportation and Supplemental Educational Services, it follows that the Title I, Part A, ARRA funding should not be included in the calculation of the per pupil rate for Supplemental Educational Services.

Waiver:

Exemption of the restriction on carryover amounts that allows a district to carryover more than 15 percent of the District's Title I, Part A allocation once every three years. ESEA Section 1127(a)(b).

Rationale:

This is necessary because the infusion of ARRA Title I, Part A funds makes it very difficult to stay within the usual carryover timeline.

FISCAL IMPLICATION:

None

RECOMMENDATION:

The Superintendent recommends the Board of Education approve the following Elementary and Secondary Act (ESEA), Title I, Part A American Recovery and Reinvestment Act (ARRA) waiver requests: exemption from 14-day parent notification; exemption to exclude all of the Title I, Part A, ARRA funding from the 20% set-aside obligation for Public School Choice and Supplemental Education Services; exemption to exclude all of the Title I, Part A, ARRA funding from the calculation of the per-pupil rate for Supplemental Education Services; and exemption of the restriction on carryover amounts that allows a district to carryover more than 15 percent of the District's Title I, Part A allocation once every three years.

Board Policy

Independent Study Program

BP 6158

Instruction

The Governing Board authorizes independent study as an optional alternative instructional strategy by which students in grades K-12 and adult education may reach curriculum objectives and fulfill graduation requirements. Independent study shall offer a means of individualizing the educational plan for students whose needs may be met best through study outside of the regular classroom setting.

(cf. 5147 - Dropout Prevention)

The district's independent study option shall be substantially equivalent in quality and quantity to classroom instruction, thus enabling students enrolled in independent study to complete the district's adopted course of study within the customary time frame. Students in independent study shall have access to the same services and resources as is available to other students in the school.

(cf. 6143 - Courses of Study)

(cf. 6200 - Adult Education)

In accordance with state law, independent study, a learning strategy, shall be established to meet unique educational needs of students at the elementary and secondary levels which cannot be appropriately accommodated in the regular instructional program. (Education Code 51745)

A student may be enrolled in a program of independent study with the mutual agreement of the district, parent/guardian if a student is a minor and the student. Independent study may be a part of the student's regular educational program, or may be a student's only educational program, concurrent enrollment, or may be a student's only educational program. An independent study program may be established to complete days of attendance missed due to vacations or other emergencies. Maximum assignment times, assignments, and methods of evaluation shall be four weeks K-12 ~~and adult school~~.

The primary goal of independent study is to offer a means of establishing an individual educational program for students whose needs may best be met through study outside of the regular classroom instructional setting.

(cf. 1621 - Home-Based Schooling)

(cf. 5147 - Dropout Prevention)

The Superintendent or designee shall ensure that each participating student has independent

study agreements and contracts with the district as prescribed by law. Individual course contracts for independent study must be consistent with the district's adopted course of study.

Students requesting independent study and their parents/guardians should recognize that independent study at the elementary level must emphasize a commitment on the part of the student's parents/guardians. At the secondary level, the major commitment must be made on the part of the student.

The Superintendent or designee shall establish appropriate screening procedures to ensure that the necessary level of commitment exists to meet the conditions of the independent study contract prior to executing an agreement.

When any student misses three independent study assignments, the Superintendent or designee shall conduct an evaluation to determine whether it is in the student's best interest to remain in independent study.

The Superintendent or designee shall establish regulations to implement this policy and shall provide an annual report to the Board regarding the number of students in independent study programs, the ADA generated, the quality of student work and the general success of the programs.

The Board believes that independent study is a key component of efforts to retain students who are at risk of dropping out of school and to retrieve students who have already dropped out.

No student or teacher shall be required to participate in independent study. (Education Code 51747)

No course required for high school graduation shall be offered exclusively through independent study. (Education Code 51745)
