**"Fiscal" Eligibility** – as defined by the required amount of funds to be set-aside divided by the cost of transportation (\$120 roundtrip). This determines the number of students that may be served with free transportation.

*Example:  $\$15,000 \div \$120$  (roundtrip fare) = 125 fiscally eligible students*

**"Criteria Eligibility** – Any student attending a Program Improvement (PI) school is deemed eligible for School Choice.

***If the demand for School Choice exceeds the fiscal eligibility, the District will prioritize by offering services to the low-income, lowest-achieving students first.***
