## What is FLIP?

The Fontana Leadership Intervention Program (**FLIP**) is founded upon a partnership between the Fontana School Police, City of Fontana, Fontana Police Department and Fontana Unified School District. The 16 (sixteen) week program offers “at-risk” teenagers 13 to 17 years of age an opportunity to experience a unique educational environment which will positively impact the rest of their lives.

Prior to entering the program, potential applicants must be referred to the program and submit an admission package. Referrals can be made by school administrators, counselors, parents, juvenile courts and the probation department. Students do not have to be enrolled in Fontana Unified schools or live in Fontana. The package will be screened by the Admissions Board and suitable applicants will be assigned a program start date in the next available class. Parents and students selected for **FLIP** **MUST** attend a parent orientation session.

There is a \$80 fee for the 16 week program.

Students enrolled in **FLIP** will be required to attend 16 (sixteen) 8-hour (eight) classes held at the Fontana Unified School District on consecutive Saturdays. These training classes will focus on topics which include violence prevention, drug and alcohol resistance, ethics, leadership skill development, teamwork, health and fitness, anger management and other related fields. The course curriculum will be facilitated by high-quality instructors and include field trips to enhance education at various locations. In addition, participants will attend daily morning meetings with the school resource officer assigned to their respective schools and be subject to other opportunities for team building.

Upon successful completion of the **FLIP** program, students will participate in a formal graduation ceremony which will include a keynote address by a recognized community leader. High school students who successfully complete the program will also earn 5 elective credits toward graduation and become part of an on-going partnership to help ensure their future success.
