

Fontana Unified School District

Every Student Successful | Engaging Schools | Empowered Communities

Our District by the Numbers

46 schools
(1 virtual)

35,000+ students

Recognized for outstanding school programs and governance practices

Recognized for exemplary and inspiring public schools

Awarded the title of Honor Roll School for high student achievement

Recognized for exemplary student achievement and progress

All high schools recognized for top-performance in the state and country

Aging Facilities in Need of Repair

More than half of our schools are over 30 years old and 16 of our schools are 50 years old or older, and do not meet today's evolving education standards. Outdated security and safety features, as well as aging portable classrooms that have only one or two electrical outlets, are inadequate for a modern learning environment and negatively impact student safety, learning and achievement.

More than 50% of our schools are over 30 years old

Over 1/3 of our schools are 50 years old or older

We Want to Hear From You!

We welcome your feedback and questions as we consider options to address the District's facilities needs. For more information or for questions, please visit FUSD.net/potentialmeasure or email us at FUSDInformation@fUSD.net.

Fontana Unified School District

Every Student Successful | Engaging Schools | Empowered Communities

Preserving Core Academics and a Well-Rounded Education in the FUSD Community

Our local public schools provide an excellent, well-rounded education from kindergarten to graduation. We prepare our students for college and future careers by helping to ensure that they are skilled in the use of today's technologies and have a solid background in science, technology, engineering, arts and math. Our students make us proud and the District is committed to ensuring that each child has an equal opportunity for success.

Potential Bond Measure to Protect Quality Education and Safe Learning Environments

To keep pace with academic standards and improve student safety and security, Fontana Unified School District is considering placing a bond measure on the November 2022 ballot. The measure could generate up to \$349 million for school facilities projects and cost property owners within the district approximately \$60 per \$100,000 of assessed (not market) value while bonds are outstanding.

If approved, bond funds could be used to:

-  Repair leaky roofs and remove asbestos, lead paint and mold
-  Keep schools safe and secure
-  Provide early childhood classrooms for all children under 4 years old at every school site by 2025
-  Prevent overcrowding by providing additional schools and classrooms
-  Help prepare our students for 21st century jobs and careers
-  Build science, technology, engineering and math labs

Strict Fiscal Accountability

A potential locally controlled bond measure would include strict fiscal accountability protections including an independent citizen's oversight committee and annual audits. By law, no funds could be used for administrator salaries or benefits.
