

Good evening families!

We wanted to send a reminder that toys should remain at home. This includes fidget spinners, figurines, toy cars, dolls, and water guns.

We have lots of fun sports, activities, and opportunities at school for students to do that there is no need to bring anything but themselves!

Additionally, some students use their water bottles to throw water on cars as they walk home and to wet their peers.

Though we know that they may be playing, it has become a safety issue that if we find a student engaging in these activities, they will receive a consequence.

We are asking for your support in reminding your student to follow our school expectations and rules. Don't hesitate to contact us if you have any questions or concerns. Thank you!
