

**Dear Press,**

**Please find below a press release statement, it reads as follows:**

**Fontana USD Press Release September 29, 2014:**

**The Fontana Unified School District are pleased to announce that on Tuesday, September 30 and Wednesday, October 1, a delegation of Chinese educators will be visiting Juniper Elementary School.**

**The purpose of the visit is for the delegation to spend time discussing and observing Juniper Elementary School's model for effective instruction and the engagement strategies that they promote within each phase of the model. The goal is for the Chinese educators to take the information they gather back to China and train their teachers to better understand student engagement and lesson delivery, including the use of Thinking Maps.**

**Furthermore, our Chinese guests are interested in having our principal and teachers from Juniper Elementary School visit their school in China to provide professional development and model lessons for their teachers.**

**The Fontana USD elementary teachers utilize this model to deliver daily lessons across all their content areas.**

**Thank you**
