BOARD OF EDUCATION MEETING: 10/21/09
Discussion/Action Session

BACKGROUND:

In March 2010, more than 130 million addresses across the nation will receive a census questionnaire. The census is required once every 10 years by the U.S. Constitution. The census will count every person living in the United States, both citizens and noncitizens. Census data are used to reapportion the U.S. House of Representative, re-district each state and determine the distribution of the Electoral College. Census data also directly affect how more than \$300 billion per year in federal funding is distributed to state, local and tribal governments. Most importantly, census data is critical in determining locations for new hospitals, improving schools, building new roads, expanding public transportation options and creating new maps for emergency responders.

The FONTANA UNIFIED SCHOOL DISTRICT (DISTRICT) recognizes the value of computer, telephone and other electronic systems (INFORMATION SYSTEM or SYSTEMS) to improve student learning and enhance the administration and operation of its schools. To this end, the Board of Education encourages the responsible use of computers; computer networks, including the Internet; and other electronic systems in support of the mission and goals of the DISTRICT and its schools. The Board of Education further requires that ALL pupil and personnel confidential information remain in its confidential status, unless released as provided by law. Thus, INFORMATION SYSTEMS include the mail system, all paper, electronic, documentary, or physical storage of information from any and all sources throughout in the DISTRICT, and all electronic systems, media or telephony.

Because the Internet is an unregulated, worldwide vehicle for communication, information available to staff and students is impossible to control. Therefore, the Board of Education has adopted Board Policy 4040, a policy governing the use of electronic systems and the Internet in order to provide guidance to individuals and groups obtaining access to these SYSTEMS on DISTRICT owned equipment, while on DISTRICT PROPERTY, on DISTRICT BUSINESS, or through DISTRICT affiliated organizations.

Rights and Responsibilities

It is the policy of the DISTRICT to maintain an environment that promotes ethical and responsible conduct in INFORMATION SYSTEM activities by staff and students. It shall be a violation Board Policy 4040 for any employee, student, or other individual to engage in any activity that does not conform to the established purpose and general rules and policies of the DISTRICT'S INFORMATION SYSTEMS. Within this general policy, the DISTRICT recognizes its legal and ethical obligation to protect the well-being of students and staff in its charge. To this end, the DISTRICT retains the following rights and recognizes the following obligations:

1. To log network use and to monitor fileserver space utilization by users, and assume no responsibility or liability for files deleted due to violation of fileserver space allotments.

2. To remove a user account on the network.
3. To remove user access to INFORMATION SYSTEMS for violation of DISTRICT policy.
4. To monitor the use of online activities. This may include real-time monitoring of network activity and/or maintaining a log of Internet activity for later review.
5. To provide internal and external controls as appropriate and feasible. Such controls shall include the right to determine who will have access to DISTRICT owned equipment and, specifically, to exclude those who do not abide by the DISTRICT'S acceptable use policy or other policies governing the use of school facilities, equipment, materials, and INFORMATION SYSTEMS. The DISTRICT reserves the right to restrict online destinations through software or other means.
6. To provide guidelines and make reasonable efforts to train staff and students in acceptable use and policies governing online communications.
7. To prosecute criminal violators to the fullest extent of the law.

Staff Responsibilities

1. Staff members who supervise students, control electronic equipment, or otherwise have occasion to observe student use of said equipment online shall make reasonable efforts to monitor the use of this equipment to assure that it conforms to the mission and goals of the DISTRICT.
2. Staff should make reasonable efforts to become familiar with the Internet and its use so that effective monitoring, instruction, and assistance may be achieved.
3. Staff should insure that no personal computers or electronic devices are used to circumvent District Information Systems. Staff is not permitted to bring private computers, electronic devices or peripherals on to District property unless previously approved by the Superintendent or Designee. Personal cellular phones are allowed under the procedures set forth in the District's cellular telephone guidelines. These guidelines shall be set forth by the Superintendent or designee .
4. Staff should ensure that no personal devices are used to access district private networks or store district information.

User Responsibilities

Use of the INFORMATION SYSTEMS provided by the DISTRICT is a privilege. Where it is available, this resource is offered to staff, students, and other patrons at no cost. In order to maintain the privilege, users agree to learn and to actually comply with all of the provisions of Board Policy 4040. Violation of the terms of this agreement, violation of state or federal law, District regulations or policy, while using, possessing or operating INFORMATION SYSTEMS may result in access privileges being revoked, disciplinary action which may include but not limited to termination, and/or appropriate criminal or civil action being initiated against me.

1. All use of INFORMATION SYSTEMS must be in support of educational goals consistent with the mission and objectives of the DISTRICT.
2. Proper codes of conduct must be used. Releasing personnel information is inappropriate. When using e-mail, extreme caution must always be taken in revealing any personnel information or personally identifying information. All employee or pupil information is confidential, and may only be released as authorized by law. If you are unsure whether information can be released, immediately contact the Chief Technology Officer or District Counsel.
3. A user's network access account (i.e. username and password) is to be used only by the authorized owner for an authorized purpose. It may not be given to or used by another person. You will be held accountable for intentional or negligent release and actions and any repercussions that may arise from those actions.
4. You may not request another user for their login credentials. If information stored using another user's credentials is needed, the Fontana Unified School District Technology Department must be contacted to assist in the release of the information.
5. All communications and information accessible via INFORMATION SYSTEMS is the property of the DISTRICT.
6. Mailing list subscriptions will be monitored and maintained, and files will be deleted from the personal mail directories to avoid excessive use of fileserver hard-disk space.
7. Exhibit exemplary behavior while using INFORMATION SYSTEMS as a representative of your school and DISTRICT. Be polite!
8. From time to time, the SUPERINTENDENT will make determinations on whether specific uses of the network are consistent with the acceptable use practice.

ITEM TITLE: Approve Request

BOARD OF EDUCATION MEETING: 10/21/09
Discussion/Action Session

BACKGROUND:

The District previously received state funding for various projects. At the time of receiving the funding, the Board approved the District's request to the County for set up of individual sub-funds within the State School Facilities Program Fund 35, to track funding for each project separately. Now, several of these projects have been completed or cancelled and an audit by the State Office of Public School Construction has been completed. The audits have determined that either unused state funds must be returned to the state or that required contribution amounts from the District, which have not yet been made, must be made. The District is in the process of making these payments. After the payments are made, the County sub-fund that was established specifically for each project must then be closed. Board approval of the request to close out these funds is requested.

FISCAL IMPLICATION:

None

RECOMMENDATION:

The Superintendent recommends that the Board of Education approve submitting a request to the County to close out sub-funds as follows: Fund-Resource 35-9715, Almond Elementary; Fund-Resource 35-9716, Wayne Ruble Middle; Fund-Resource 35-9741, Dorothy Grant Elementary (Lime); Fund-Resource 35-9738, Ted Porter Elementary; Fund Resource 35-9765, Almond Elementary 6th Grade; Fund-Resource 35-9755, Birch Continuation High School Expansion and authorize the Deputy Superintendent of Business Services to sign the necessary documents.

Police Services

ITEM TITLE: Adopt Second Reading Board Policy BOARD OF EDUCATION MEETING: 10/21/09
Discussion/Action Session

BACKGROUND:

Board Policy 5145.12, Search and Seizure, was adopted in October 2001. Since that time, the California School Boards Association (CSBA) has provided guidance on updated components that should be addressed in the policy. The attached policy reflects changes to mirror CSBA's recommendations. Deleted language is shown as strikethrough text; new language is underlined.

The first reading of this policy was approved at the October 7, 2009 Fontana Unified School District Board of Education meeting. Since then, it has been discovered that the third paragraph of the policy was to be deleted; the attached version reflects this change and is now being presented for second reading adoption.

FISCAL IMPLICATION:

None

RECOMMENDATION:

The Superintendent recommends that the Board of Education adopt the second reading of revised Board Policy 5145.12, Search and Seizure.

BP 5145.12 Students

Search And Seizure

The Governing Board recognizes that incidents may occur which jeopardize the health, safety and welfare of students and staff and which necessitate the search and seizure of student, their property or their lockers by school officials. The Board requires that discretion, good judgment and common sense be exercised in all cases of search and seizure.

(cf. 5145.11 - Questioning and Apprehension)

Individual Searches

School officials may search the outer clothing of individual students; and/or their property (backpack, purses, etc.) when there is a reasonable suspicion that the search will uncover evidence that the student is violating local, state or federal ~~the~~ law or rules of the district or the school.

~~The district shall notify the parent/guardian of a student subjected to an individualized search as soon after the search as possible.~~

Student Lockers

Because lockers ~~and~~ are under the joint control of the student and the district, school officials shall have the right and ability to open and inspect any school locker without student permission when they have reasonable suspicion that the search will disclose evidence of illegal possessions or activities or when odors, smoke, fire and/or other threats to student health, welfare or safety emanate from the locker.

For health and safety reasons, a general inspection of school properties such as lockers and desks may be conducted on a regular, announced basis, with students standing by their lockers or desks. Any items contained in a locker shall be considered to be the property of the student to whom the locker was assigned. Notice of this policy shall be given to all students when lockers are assigned.

Random Use of Metal Detectors

The Board finds that the growing presence of weapons in the schools threatens the district's ability to provide the safe and orderly learning environment to which our students and staff are entitled. The Board also finds that random metal detector searches offer a reasonable means to keep weapons out of the schools and mitigate the fears of students and staff.

The Superintendent or designee shall establish procedures which ensure that metal detector searches are conducted in a random fashion which excludes individual discretion as to who will be searched.

(cf. 0450 - comprehensive Safety Plan)

(cf. 5131.7 - Weapons and Dangerous Instruments)

(cf. 5144.1 - Suspension and Expulsion/Due Process)

Use of Drug-Detection Dogs

In an effort to keep the schools free of drugs, the district may use specially trained nonaggressive dogs to sniff out and alert staff to the presence of substances prohibited by law or Board policy. The dogs may sniff the air around lockers, desks, bags, items or vehicles on district property or at district-sponsored events as long as they are not allowed to sniff within the close proximity of any students.

(cf. 5131.6 - Alcohol and Other Drugs)

The above inspections shall be unannounced and may be made at the discretion of the Superintendent or designee.

Students and parents/guardians shall be informed of this policy at the beginning of each school year.

Fontana Unified School District contracts with Southern California Relief as a third party administrator to handle and adjust Property/Liability claims submitted against the District. However, in some instances there are claims that can also be handled directly by Fontana Unified School District.

On August 26, 2009, one of our buses was exiting Oak Park Elementary onto Live Oak Avenue. The bus driver turned for a second to discipline a student and drove into Erick Rodriguez's parked Ford pickup, damaging the left rear of the vehicle.

The claim for damage to the vehicle and rental vehicle total was \$3,989.00. The lower estimate, also provided by the claimant, plus a rental car is \$3,623.74.

We are approving the claim and rejecting the amount requested.
