Dr. Peoples shared a commendation from the Kiwanis Club of Fontana for sponsorship of the Southern California 2003 Special Olympics Area meet held on April 12, 2003. Correspondence

Dr. Peoples announced that the FEI discussion item was being pulled from the agenda and would be held for a full presentation in the future. Administrator Comments

Mr. D'Souza announced that at the July 2nd meeting of the State Allocation Board \$54.4 million was approved for the construction of Summit High School, that the district hoped to have the bid award in August, and for construction to begin in September.

Mrs. Binks suggested to Mr. Orlich that he sit on the textbook selection committee in order to gain information on what was going into schools in the form of textbooks, and to read and critique them. Board Member Comments

Mr. Orlich declined the offer.

Mrs. Binks announced that there would be a welcoming reception for Dr. Bradley, the new superintendent, on August 5, and thanked the City of Fontana, along with the District, for sponsoring the 4th of July fireworks display. She then noted that she had received several letters from employees regarding the training in classrooms of puppies as guide dogs, and requested that a policy be developed to allow this with an option for students to opt out of such classrooms if they so desired.

Dr. Ruble responded that Dr. Peoples had been asked to look into this possibility, that liability insurance was provided by the guide dog program, and that until a policy was devised the Board had said they agreed that they would like to see this program in schools.

Mrs. Binks then expressed her opinion that it was too bad that public schools were not mandated to have classes to teach students how to be good citizens, that if that were the case there would be a much better school district and society, and noted that the District used to have citizenship classes.

Mr. McClure expressed his pleasure and excitement of having Dr. Bradley present at the meeting, and wished her a successful career. He then mentioned that he planned to visit school sites during the summer and that principals could expect his calls to schedule the visits.

Mr. Hawthorn referred to the June 18 meeting and the presentation given at that meeting of the Machine Shop Program at Fontana High, and that he was looking forward to the proposal from the companies involved in that presentation. He suggested that a letter of thanks be sent to those companies and to confirm their interest. He then talked about the budget crisis and a recommendation from a “think tank” to target spending reductions through program-based budget processes, and that he was pleased to see the District’s policy that had been approved at this meeting regarding the budget process, as this was one key piece of the Curriculum Management Audit that had not yet been implemented. Mr. Hawthorn also mentioned the cell phone policy for students, and the reality that kids were in possession of cell phones in school, that current feedback was that they were pretty responsible with those phones, and that the policy should reflect that.

Ms. Mancha asked if that policy could be brought back.

Dr. Peoples responded that it would be some time, but it would be brought back.

(Board of Education Regular Meeting July 9, 2003)

Ms. Mancha commented on the presentation earlier in the evening by Krystal Banzon, that she knew Ms. Banzon personally and was very proud of her. She then noted that Karen Gallimore, a teacher at Kaiser High School, had recently returned from a Supreme Court institute in Washington D.C., and suggested that she be invited to classrooms to present her experiences.

Dr. Ruble thanked the Board for giving him and Ms. Mancha the opportunity to visit the Lompoc School District as part of the Superintendent Search Process in order to meet with members of that community; it was a very interesting experience.

The President adjourned the meeting at 7:02 p.m.
