Mr. D'Souza shared that at the July 23rd meeting of the State Allocation Board, the construction of three more elementary schools was approved under financial hardship funding.

Comments

Mr. Hawthorn commented on the policy for cell phones that was being developed, that he had been receiving feedback from parents asking if the policy could be completed before the start of the school year for the high schools. He requested that, if the policy would not be completed prior to that time, if the Board could be provided with an idea of what would be outlined in the policy. He then requested that details regarding the Adequate Yearly Progress report be provided to the Board. Mr. Hawthorn then reflected on recent news of the Public Utilities Commission authorizing Southern California Edison to reduce rates and of potential savings of \$481,000 to the District over the next year, and asked where that money would end up.

Board
Member
Comments

Mr. D'Souza responded that the District was also anticipating a rebate of \$203,000, that he was aware of a number of positions in the District that had not been budgeted for, and that after attending a budget session next Monday, he would reflect changes to the final budget and would update the Board after that date. He noted that the District had only a small amount over the 2% minimum reserve remaining, and that help was needed in increasing the ending budget.

Ms. Mancha welcomed Dr. Bradley to the District, and shared her opinion that the welcoming reception held the day prior to the meeting had been very well planned and that many people attended.

Mrs. Binks commented on the opening of Almond Elementary School, the "Night Out Against Crime" campaign held the prior night, the welcoming reception for Dr. Bradley, and the School Resource Officer partnership between the District and Fontana Police.

Mr. McClure shared that he had been visiting schools, had been able to get to all of the high schools, and they were all nice visits. He then welcomed Dr. Bradley to the District, and commented that she was off to a good start.

Dr. Ruble commended Richard and Barbara Anderson, community members, for supporting the District by providing gift certificates from area restaurants for schools' use in awards for attendance, grades, etc. He then noted that there had been a recommendation from the City to move a food distribution program out of the Jesse Turner Center, which had been supported by volunteers for many years. He reminded the audience of the segregation that had once been predominate in the City, and that Jesse Turner was an advocate of desegregation in the 1950's who promoted programs for the county during that time. Over the years she had set up the Dorothy Grant Foundation to provide high school scholarships, attended various events held in the City parks, volunteered to help make lap quilts that were donated to nursing homes, and other worthwhile causes.

Dr. Ruble stated that he was really bothered by the fact that over 1,230 families and individuals who were currently receiving food products from the facility every month would lose that support if the food program were moved from the center. He expressed his opinion that at one time the City was unconcerned about the Black population having its own facility in that area, but that with the Sierra Lakes development now in place, it wanted the facility expanded to allow for more seniors to use it, and was overlooking the fact that over 5,000 people were currently receiving services out of that center.

Mr. Hawthorn commented the argument could be made that such an item was not school business, but that such services effected families of students that the district was responsible for. He requested a report on how the recommendation came about, and how those families would be served if the food program were removed from the center.

Dr. Bradley thanked the Board for hosting her welcoming reception the prior evening, and stated that she was overwhelmed by the number of persons who attended from the District and City as well, that it reinforced the comments she had heard about the Fontana community and city. She then thanked all of those she had met with since taking office for taking time to teach her about the operations of the District. She also, on behalf of all staff, thanked all of the departments that had assisted in the start up of the single track and middle schools, as well as "D" track for the multi-track schools, for working together collaboratively to process requisitions, provide transportation services to children, etc. that contributed to the smooth start of a new school year.
