Acknowledgement
of Achievements

The President called the Public Comments session to order and called for comments from visitors.

Public
Comments

Charlene Bertinotti, Fontana PTA Council President and parent of students in the District, thanked the Board for allowing her to sit on the interview panel for the new superintendent; it was a privilege, and she thanked the Board for giving parents a say. She continued that she walked out of the interviews feeling the work they had done was very important, knowing the end result was fair and in the best interest of every parent student and employee of the district.

Mr. Tony Orlich spoke on freedom for Chechnya and on that country's oppression by Russia, how the West now looks approvingly on any actions taken against Muslims wherever they were, and on the current war in Iraq.

Ms. Chavez thanked the Board for allowing her to participate in the interview panel for the new superintendent, it was a great joy.

Bargaining Unit
Representatives'
Comments

Ms. Young also thanked the Board on behalf of teachers for giving them a voice on the interview panel, and what implications of that were; that the year prior there was not the kind of relationship between the association and the district that they should have, energy was wasted away from what was needed to focus on, which was the students. She continued that through it she was very concerned, but she kept her faith that the community had elected five people who had good hearts, best intentions, and their number one focus was to take care of the kids, and to take care of the kids they took care of their employees as well. Ms. Young commented that the Board had moved forward to do what was best for students and the choice of the Interim Superintendent was a progressive choice, that was a proactive kid person, which raised a new challenge for her; to have the teachers move up and begin to repair the relationship they should have. She noted they had been working on a more collegial relationship, and she was heartened to have been invited to a process that they had been actively excluded from the year prior, and how that had provided great distance to restoring the kind of relationship they should have with the Board. Ms. Young commended the Board for allowing her to be a part of the interview team; it was a very powerful experience, and a step the Board had not been willing or able to make the previous year. She commented on the overall quality in the outstanding candidates they had seen, and of her belief that in the next step of the Board interviewing the candidates they would forward to them they would be amazed.

Bargaining Unit
Representatives'
Comments,
continued

Dr. Ruble noted that the committee had given the Board the names to interview, that process would take place on the 18th of the month at 6:00 p.m. which would be a Closed Session for the interviewing; however the next Wednesday there would be a special Closed Session for the Superintendent to bring information about the candidates to the Board, the comments and recommendations from the committee, so the Board would have that information prior to the time they would meet to interview the candidates.

Ms. Sara Najarro, Principal of Mango Elementary School, introduced Ms. Myrza Andrade-Martinez, parent of two children at Mango Elementary School, who presented a report on the "Mommy and Me Reading Club" Program at Mango Elementary School, which she was instrumental in starting. A group of students from the school performed cheers from their Reading Olympics event for the Board and audience.

Bids Rejected
/ Re-Bidding
Authorized

Mr. Orlich asked why the bids were so high, and if the district had not been so short of money would it have accepted one of the bids? He also asked if all the bidders were going to be asked to bid again.

Bids Rejected
/ Resolution
Adopted

Dr. Ruble explained there were several reasons, one was that the company that was going to do the work went bankrupt, and the state only gave the district so much money. He further explained that Fontana Middle School was the oldest school in the district, and modernization was almost non-existent.

Mr. Kurr explained that construction materials had recently increased considerably, and that the modernization projects throughout the district were funded by Hardship dollars, which was not sufficient to the work that needed to be done. He continued that even if the district had other funds available and wanted to use those to finish the project, if anything was paid over what the state had authorized for hardship, the district would also have to pay the state the like amount which would be like paying twice.

Dr. Peoples added that the modernization had been delayed at least two years by the disruption in the construction process, and was one of the first awarded, so it had actually been awarded funds for modernization 4 or 5 years prior which could not meet the needs with construction costs in the present. She added a number of approaches were being looked at and recommendations would be brought forward in the future, but at present this was the best recommendation possible to use the very limited monies to the best effect, otherwise if a decision was not made these monies would be returned to the State of California.

On motion made by Mrs. Kathy Binks, seconded by Ms. Laura Abernathy Mancha, and carried, the Board rejected all bids received on Bid No. 04/05-1129, Modernization of Fontana Middle School, adopted Resolution #04-58 declaring an emergency at Fontana Middle School (Copy attached to Official Minutes), and authorized Janie Barker, Director of Purchasing, to enter into contracts without advertising or inviting bids, and to sign all necessary documents.

On motion made by Mrs. Kathy Binks, seconded by Dr. Arlene Piazza, and carried, the Board adopted Resolution No. 04-55, accepting Bond No. 6272265 to release money withheld on Stop Notice filed by Shalgon, Inc. dba MTK, in the amount of \$510,022.72. (Copy attached to Official Minutes)

Dr. Peoples shared that funding in the amount of \$5 Million, as an interest-free loan over fifteen years, had been awarded for the implementation of a Career Technical High School to benefit all eligible students in the district. She also gave an update on the elementary school project in Citrus Heights, that the project was moving forward with good working relationships, and clarified that, assuming the district is successful in getting a contract, this would be a developer paid for and developer built school. Dr. Peoples then commented on the outstanding opening of Ruble Middle School, congratulated Ms. Crystal Whitley, Principal, and the staff, commended them and members of the Maintenance and Operations staff for working over the weekend to prepare the school for opening. She noted that dedications for Ruble Middle and Grant Elementary Schools would be held in January or February of 2005.

Dr. Peoples lastly updated the Board that the Boundary Review Committee would be meeting for recommendations on the boundaries for Summit High School, which would be on the agenda for October 20th. She commended community members for giving input through email, phone calls, and a petition, and explained the letters sent to residents in the area regarding possible boundary changes and inviting them to participate in the Boundary Review Committee Meetings.

Mr. Lardieri noted that in order to pull Reference Y from the agenda, the award of contracts to Paul C. Miller Construction Company and Neff Construction, Inc., to provide construction management services, a motion and a second were needed. Mrs. Kathy Binks made the motion, Dr. D. Wayne Ruble seconded, and it was carried to formally pull the item.

Dr. Piazza congratulated the “Mommy and Me” program, and wished every school had that kind of program and participation. She then expressed a concern with the changes being made in the classified clerical area, that employees who had been with the district a long time were being downgraded in jobs they had been doing successfully, and asked why they couldn’t be left there until the job opened up and then change the classification; she also asked to see the number of employees affected by the changes and why.

Mrs. Binks commented on the A. B. Miller open house and the numerous activities there, and thanked the Mango “Mommy and Me” class. She then thanked the speakers earlier in the evening for their comments regarding their participation on the superintendent interview panel, that they were bringing to the Board the best they felt, and that since the Board had selected them to be on the committee she thanked them for their time, effort and energies. Mrs. Binks noted she had asked to have the agenda item pulled earlier in the evening because she had some concerns she wanted to check out, and Mr. Hawthorn also had concerns and wanted to be present when that item was brought for consideration.

Dr. Ruble shared information he had received at the recent CAJPA conference regarding guidelines for determining possible victims of child molestation, of a fingerprint identification system being used by Ontario/Montclair School District for bus riders, and of Medicare funds being used to cover costs of Worker's Comp. He then congratulated Dr. Kenneth Hendershot, Principal at Fontana A. B. Miller High School, for including information on construction of the new wing at that school in the school's regular newsletter to parents. He then shared information on the upcoming meeting of former employees of the district, and on the first program to be presented by the Fontana/Rialto Community Concert Association. Dr. Ruble then expressed his concern of the district's selling off of property, then later being sorry for doing so, and asked if some of the property for sale in the north end of the city could be used as a satellite facility for Maintenance and Operations.

Dr. Peoples explained that there was a 5-acre parcel of vacant land to the immediate north of Ruble Middle School where a second site for the Maintenance and Operations department was being planned, and the district was looking for property to do the same on the south end. She further explained these were hard projects to do because no funds came from the state for them as they were not tied to students.

Mr. Lardieri shared information on the formation of the School Naming Committee, and that he would make appointments once nominations were in. He noted that he and several people from the district had met with members from the LPA (Learning Plus Associates), and hopefully had come to agreement; however he had embargoed that information until hearing from LPA to be sure both parties were saying the same thing, and as soon as that was done that information it would be shared with the Board. Mr. Lardieri then commented his tenure with the district was drawing to a close, and that he was willing to remain after the hiring of the new superintendent to help with the first Board meeting in November, and that although he had said he would stay until November 15th, if the Board wanted him to leave sooner than that he would do so.

Superintendent
Comments

Dr. Ruble asked for the Board members to comment.

Dr. Piazza stated she thought it all depended on when the new superintendent would arrive, that Mr. Lardieri would have to “play it by ear”.

Ms. Mancha agreed with Dr. Piazza’s comment, and added that she would appreciate Mr. Lardieri acclimating the new person.

Mrs. Binks agreed, and thought it would be nice if Mr. Lardieri stayed.

Dr. Ruble summed up that he thought it would be up to Mr. Lardieri to decide when to leave.

On motion made by Ms. Laura Abernathy Mancha, seconded by Mrs. Kathy Binks, and carried, the Board adjourned the meeting at 8:49 p.m. Adjournment
