

## How Students Take iO Assessments at Home

### Review the Following Resources

- [Accessing Remote Testing Links for Parents and Students](#)
- [Tips for Parents and Students for Remote Testing](#)
- [What Parents and Students Should Know About Formative and Interim Tests in FUSD](#)

### Required Software for Student Devices

Students will need to access the Google Chrome or Microsoft Edge web browsers from their FUSD device.

**Note:** Test settings allow students to take assessments at home on their own or proctored by a teacher. These instructions are for those tests set to be proctored by a teacher.

### How to Logon to Take an iO Assessment

1. Open the web browser of your choice, either Google Chrome or Microsoft Edge.
2. Go to the [FUSD Student web page](#), click the ClassLink icon, then students enter the same credentials that are used to log into their FUSD device. Click the **Sign In** button, then click the **IO EDUCATION REMOTE TESTING** icon from the ClassLink LaunchPad.

3. From the **login** screen, enter the following information:
  - a. In the field under *Student ID*, students enter their FUSD Student ID.
  - b. In the *Session ID* field, students enter the session ID provided by their teacher. Teachers can provide the *Session ID* through Microsoft Teams.
4. Click the blue **Login** button to take the test.
5. Click **Begin Test** to take the test.

Formerly EADMS

### Welcome to Online Testing

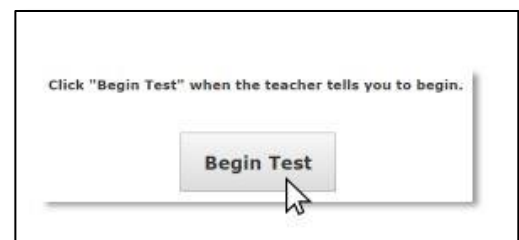

Please enter your Student ID and press the login button below.

**Student ID**

If you have been given a Session ID by your teacher, enter that as well.

**Session ID (optional)**

**Login**

Test questions will appear on the screen. Students can test normally as if they were in school. Teachers will monitor the tests from their computers.

Students can communicate with the teacher through the chat feature in Microsoft Teams with questions or if help is needed.
