**About the College, Careers and Economic Development  
Department at Fontana Unified School District**

The College, Careers and Economic Development Department works collaboratively with the Teaching and Learning Division and serves as the Fontana Unified School District liaison with local, state and national organizations that connect and support college, career and economic development. The Career Technical Education pathways program is an approach that blends college preparatory academics with rigorous career technical education courses that are centered around an industry sector, pathway and career theme. Students will apply their knowledge and skills in an authentic, real-world context that brings community partners and the school together to prepare students to be College and Career Ready upon graduation from high school.

For more information about the College, Careers and Economic Development Department, contact:

Find your fit by customizing your academic experiences to suit the way you learn.  
Take the first step toward your new future today!

# Your Future Starts Here

At Citrus and Eric Birch High Schools, we **prepare every student for college, career, and life** by focusing on the academic, social and emotional needs of each individual student. Following an alternative education model, students participate in a **digital learning environment**. This small personalized model enables students to earn high school credits at an accelerated pace, setting them up to meet graduation requirements.

Beyond traditional 9 - 12 grade curriculum, Citrus and Eric Birch High Schools are proud to offer a variety of elective courses and Career Technical Education (CTE) pathways that provide **real-world learning** to prepare students for college, career and life.

Join us today!

## CITRUS HIGH SCHOOL

INDUSTRY PATHWAY

### Construct Your Future: Building Trades and Construction

Students in the Building Trades and Construction pathway at Citrus High School prepare for exciting careers in construction and building design, performance, and sustainability. With a focus on learning the process of building and designing residential and commercial structures, students will obtain work-based skills used in the construction trades including industry-specific mathematical calculations, how to interpret information from technical drawings and demonstrate a wide-variety of carpentry and plumbing techniques.

Upon successful completion of this pathway, students will be prepared to enter the workforce with a level of expertise that is in high demand for a variety of positions in the building and construction industry.

## ERIC BIRCH HIGH SCHOOL

CTE INDUSTRY PATHWAY

### Hit the Ground Coding: Information Support and Services

Students in the Information Support and Services Pathway at Eric Birch High School prepare for in-demand careers that involve computer services and software – the foundation of all successful business organizations. With access to state-of-the-art software and industry partnerships, students learn the skills they need to start a solid career straight after earning their high school diploma. This pathway provides students with the opportunity to participate in a wide variety of hands-on learning experiences, including career events, employment workshops, industry field trips, and internships.

## STUDENT SUPPORT

Our schools offer the following support systems to enhance student learning:

- Academic support through learning labs
- Individualized academic and graduation pathways for every student
- Technology devices for every student
- Digital access to online learning modules
- Student Success Club – an intervention program that provides students with social and emotional supports through research-based curriculum
- National Curriculum and Training Institute (NCTI) Crossroads Education Program – in partnership with South Coast Community Services, this curriculum focuses on the relationship between values, attitudes, and behaviors through an interactive process

## FAMILY SUPPORT

We offer the following programs to enhance student and parent participation:

- Parental involvement through School Site Council
- English Learners Advisory Committee (ELAC)
- Coffee with the Principal
- Student Advisory Committee
- And much more!

## Adult Transition Program

Both Citrus and Eric Birch High Schools are the proud homes to an adult transition program for special needs students ages 18 - 22. Our small school environments provide the opportunity for general education and special needs students to regularly interact with one another in a social setting. Special needs students learn life skills, social skills, and job skills to find success and independence in the workplace and in adulthood.
