

Rebel Reflections

From The Principal's Desk...

I am excited to share that this past week I had the privilege of spending the week with our AVID Juniors and the AVID staff on a college visitation field trip that saw us travel up the beautiful coast of California and come home through the agricultural center of our beautiful state. Along the way we visited and learned about 13 universities of all type and sizes as well as a visitation to Alcatraz.

One of my favorite things when chaperoning this yearly trip, is having our alumni who are now attending or in this years case, teaching at the university that we are visiting. Their excitement for their new school and sage advice as to how to make the transition from A.B. Miller and Fontana to living in their new university soundings.

Here are some highlights of this years trip:

California State University, Northridge

UC Santa Barbara

UC Santa Cruz

San Jose State

UC Davis

Let me know if there is anything you or your student needs. I can be reached at (909) 357-5800 ext. 10117 or barbara.kelley@fusd.net.

#WeAreABMiller,
Dr. Barbara Kelley, Principal

For All Athletic Events at A.B Miller High School

A.B. Miller Athletics will be using **GoFan** for ALL home games for ALL levels (Freshman, JV, and Varsity). Many of our opponents will also be using **GoFan** for away competitions. No cash will be accepted at the entrances. Please use the QR code below **GoFan** and purchase your tickets.

Counselors Corner

This is a continuation regarding some future-proof career options that are likely to be in demand after our current high school students graduate.

Human-Machine Teaming Manager: As automation and AI become integral, these managers facilitate collaboration between humans and machines. They optimize workflows, enhance productivity, and address challenges in human-AI interaction.

Sustainable Energy Specialist: Addressing climate change requires expertise in renewable energy, energy efficiency, and sustainable practices. Specialists in this field contribute to a greener future.

Healthcare Navigator: Navigating complex healthcare systems is crucial. Healthcare navigator's assist patients in understanding insurance, accessing services, and making informed decisions about their health.

Elderly Care Coordinator: With aging populations, elderly care coordinators organize and manage services for seniors. They ensure quality of life, healthcare, and social support for older adults.

Virtual Reality Architect: As virtual reality (VR) and augmented reality (AR) gain prominence, architects specializing in immersive experiences will design virtual spaces, simulations, and interactive environments.

Remember, adaptability, continuous learning, and a growth mindset will be essential for thriving in the dynamic job landscape of the future!

Upcoming Events
